HIGHLY IMPORTANT DISCOVERY.

Fessel's Pabulum Vitæ

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, is successfully meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr A A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors ready, and consequently is prompt IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the agent, however, assures the public in sincerity, that this medicine is not only perfectly safe, and free from all other deleterious properties, but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles;
Bronchitis by using One to Three Bottles;
Coughs by using less than One Bottle;
Colds by using it Two to Six Days;
Breeding of the Lungs by using less than One Bottle.
Hoarseness by using less than One Bottle;
Soreness of the Chest by using less that One Bottle.

MECHANICS, INVENTORS MANUFACTURERS AND FARMERS

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of next be It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the states of the Union It is not, as some might suppose from its title, a dry, abstruse work on technical science on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial works, as to please and instruct every one If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Inventor wishes to get a recipe for making a good one, &c—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads reapers, mowers, and a thousand other applications both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and not elsewhere They are presented in a reliable and interesting form, adapted to the comprehension of men of minds unlearned in the higher branches of science as well as

The Union and the Aroostook.

We regret to perceive that the Union, instead of giving an open and candid and complete answer to our questions, and taking a manly stand either for or against the principle of State aid to the Aroostook railroad, to still disposed to equivocate, and cavil, and carp; and that instead of defining its own position so that its political friends may distinctly know where it stands upon this question, so vital to our whole State and especially to Eastern Maine, the Union prefers to misrepresent and criticise our views and statements, and to ask why the Republican party don't go ahead and carry it out as a party measure, and thus endeavors to get up a controversy, in the smoke of which it hopes to conceal its own dubious position. We shall indulge the Union in no personal controversy, however,—but hold it to a clear and categorical answer of the questions we have heretofore proposed—"Are you in favor of a railroad to the Aroostook—and of such aid from the State as may be indispensable to its construction?"

As to the Union's allegations about our position and statements, they do not affect our equanimity at all. The readers of the Whig and Courier do not need any assurances from us of our friendship for the great enterprise now in agitation, or of our desire to see the Aroostook country speedily settled. We have labored with think as earnestly at least as any other editor in the State, to place the matter properly before the people, and to arouse them to a realization of its importance. And we have no words to take back. The position we have taken is that a railroad should be secured, in order that the settlement of that great region may benefit the business of Maine instead of New Brunswick,—and that if we are not to have a railroad, the gener l business of Maine will not be benefitted, because the products of the Aroostook region will in that case go to market in and through a foreign country, and its supplies be derived from the same source. That position we still conceive to be a sound one, and we are willing to leave it to our readers without more argument. The case is clear enough. Let the construction of a railroad be provided for and made certain, and the settlement of the Aroostook region will be immensely accelerated, and at the same time we shall have rendered the benefits of the emigration certain to accrue to Maine.

EXTRACTING SUNBEAMS FROM CUCUMBERS.—The Union comforts itself with the conviction that "the Democracy have done remarkably well," in the recent elections, "*considering the circumstances.*" We think they have." The "circumstances" are such, touching the principles and policy of the sham democratic party, that they ought not to have secured a single Representative in Congress from any honest constituency.

With the whole power of the Administration at command—with the money of the Government at their free disbursement—with thousands of extra laborers at the Mint, the Navy Yard, and other public works—and with the foreign population at their back—the Buchanan party elected Florence in one of the Philadelphia districts. Even this election was by a meagre *plurality* of three or four hundred votes, and not by a *majority*. Had a union been effected between the opponents of the Administration on a single candidate, an anti-Buchanan man might have been chosen by a large majority. In one other Pennsylvania District a Buchanan man (Dimmick) was re-elected by a majority of a few hundreds, instead of his former thousands. "Call you that backing of friends" in the President's own State. "A plague," may they well say, "on such backing!"

The Union's "circumstances" are adverted to in its suggested consideration that the Administration "have to contend single-handed against the combined forces of Black Republicanism, Know Nothingism, and traitor Democrats." And yet, strange enough, the same paper, in the same article, in order to figure out for its party a majority of four in the next Congress, claims three of those very "traitor democrats" in the Pennsylvania delegation, and one or two of the same stamp from Indiana—saying nothing of the claim of one more than they are probably entitled to from the State of Ohio.

Whence, it may be well asked, this treason in the democratic camp? People do not often fight against their own bread and butter, except from principle;—and the fact that Buchanan could not, with all the means and appliances of Government power and patronage at his command, keep his party in the lines, even in his own State of Pennsylvania, shows that there is a principle at work among the people, and operating upon their honest representatives, stronger than the seven principles of Buchananism—the "five loaves and two fishes" of office. Among other things, "the Quaker vote" must have been at last heard *from*, to some good purpose.

A fellow in New York has trained his dog to steal deer meat while he remains at a safe distance, ready to receive the fruits of the canine larceny.

The editor of the Schenectady Star publishes an account of the birth of a baby weighing nineteen pounds and a half.

THE INDIANA LEGISLATURE. The Indianapolis Journal gives the following as the complexion of the Legislature:

Republicans	25
Anti-Lecompton Democrats	3
	28
Lecompton Democrats	22
Opp. majority	6
House—	
Republicans	52
Anti-Lecompton Democrats	4
	56
Lecompton Democrats	44
Opp. majority	12

As between Republicans and Democrats there is a tie in the Senate and a Republican majority of four in the House and on joint ballot. As between Lecompton and Anti-Lecompton there is an Anti-Lecompton majority in each Branch, and of eighteen on joint ballot. The Journal is confident that its estimate of the Anti-Lecompton strength is, if anything, too low, as there are quite probable two or three more Democrats in each House who will act with the opponents of the Administration.

New Publications.

THE HARVEST AND THE REAPERS; Home work for all and how to do it; by Rev Harvey Newcomb, author of "Cyclopedia of Missions," "How to be a Man," "How to be a Lady," etc., etc. Boston: Gould & Lincoln. 1858.

The above is a neat volume of 270 pages.—It is designed, says the author "to awaken a deep interest in personal efforts for the conversion of souls to Christ," and to suggest means by which the object may be accomplished.—The work evidently embodies the results of experience and reflection, and has been prepared with great care. It contains an extended report of the Revival of 1858 in the various States also gives valuable information of the Missionary Schools in New York and other places, with other interesting matter.

HARPER'S MONTHLY for November is received by Mr. C. R. Patch. It contains, among other valuable and interesting articles, a finely illustrated biographical sketch of that impetuous son of liberty, Ethan Allen of revolutionary memory, "The Voyage of Paul" is beautifully illustrated; also "Scenes Gaslop across the Pampas," which is continued. The "Drawer" discounts freely of wit and humor—and the number is in all respects an interesting one.

A CAPE COD paper notices the last solitary banquet of a "last man's" club in that city. In the cholera season of 1832, seven gentlemen agreed to meet annually and dine once together so long as they lived—a bottle of wine to be sealed, and drunk in memoriam by the survivors. The first reunion was held on the 6th of October 1832, and on the 6th of October, 1858, Dr Vattier, sole survivor of the seven, drank from the bottle and pledged the six dead friends whose empty chairs and empty plates were his only society at the last melancholy feast.

NEW COUNTERFEIT.—Counterfeit $5 bills on the Granite Bank, Boston, have been discovered in New York. The bills are struck off from a plate got up for the Waubeek Bank, De Soto, Nebraska. In one corner is a likeness of Washington, and in another a likeness of Henry Clay. In the centre of the bill is engraved a double decked steamboat similar to those playing in the western and southern waters.

PICCOLOMINI, the newly arrived opera singer, whom the New York papers are just now hooking, is accompanied by her father and mother, sister and brother, and two servants, and has twenty-five travelling trunks. Her salary is $4000 per month for twelve months.

THE NEW YORK HERALD has a long article upon the canvass in that State, in which it concedes the election of E. Morgan and the entire Republican State ticket.

THE LIST OF THE ARABIA'S PASSENGERS.—The complete list of the passengers by the steamship Arabia has reached New York, and shows that the exact number last was 456—Only 88 were saved.

The Philadelphia North American estimates the present population of Philadelphia at about 600,000.

The total number of deaths in Chicago during the months of September was two hundred and fifty-eight.

The Manchester Union says that the New York Tribune refused to print Gov. Denver's letter." Now the Tribune says plainly that letter, and the reporter says he did not refuse to do so. On the contrary he ordered it published in his paper, as soon as it came into his possession.

AMERICA TRADING WITH TARTARY.—The Americans have a quick perception of a new market for their products; and while Europe is yet ignorant or hostile to us to the immense importance of the North Asiatic Mississippi opened to a free American commerce the commerce of the world, the Yankee merchants and skippers have landed considerable cargoes of sugar at the port of Nicolajaw, at the mouth of that stream, which Russian steamers have conveyed at once up into the very heart of Tartary, and the interior of the Muscovite empire. The unexpected supplies have had an astonishing effect on the late fair at Novogorod, to which it is pretty the Central Asiatics resort for their purchases; that market alone, the value of which has fallen 40 per cent., owing to the raw sources of sugar importation; and every other commodity will shortly be similarly affected by it must be a general revolution to the benefit of China, Mongolistan, and be others Sparta.—*London Star.*

THE WEIGHT OF A MILLION IN GOLD. We are indebted to a gentleman, who occupies a prominent position at the United States Mint in this city for the following reply to the question—What is the weight of a million in gold? "The weight of one million of Dollars of United States currency in gold is 53,750 troy ounces. This makes 1479 pounds 7 ounces—or nearly two tons and a quarter, reckoning 2000 lbs. only to the ton.—*Phila. Inquirer.*

CALAIS, Oct. 27.—I would ask

Elizabeth A. Gibson vs. Joshua Godfrey.—Verdict for Demandant.

Thomas Mann v Dennis Sprague. Replevin for 907 pine and spruce mill logs. Defence, that the logs were attached by the defendant as a Deputy Sheriff, on a writ in favor of 14 horses to secure their hire. Continued on report. Rowe & Bartlett for Plaintiff. Everett for Defendant.

Benjamin Stone v Jamie Babcock et al. Account for spruce logs. Defence payment. Peters & Randall for Plaintiff. Rowe & Burnham for Defendant.

THE RAILROAD QUESTION EXPLAINED.—A friend who had occasion to attend the Musical Convention at Bangor, writes us from that city that when he got to Kendall's Mills he was obliged to stop over night, and take the freight train to Bangor in the morning; the trains on the back route, under the direction of the selfish, reckless and offensive management of Mr Noyes, the Superintendent of the road, being made to escape the connection with the Kennebec trains as often as possible.—*Bath Times.*

We understand that the trains on the "back route," as the Times styles it, are and have been run strictly "on time." They leave Kendal's Mills at precisely the same time as for months past—*on the same time at which the Kennebec & Portland trains have for months uniformly connected,* UNTIL WITHIN TWO OR THREE WEEKS. The "back route" has not quickened its time a moment "to escape the connection."

Why is the "lower route" stop holding back?

"FAILURE OF DANIEL E. SOMES,"—A large draft is suddenly made on the sympathies of the Argus. What with the case of the "shipmasters," and that of our member of Congress elect, we fear the Argus must *feel* to furnish the necessary demand. But for the relief of the Argus, we learn that attachments have recently been made on Mr. Somes's property for claims already abundantly secured; that receipts are or are about to be given, and that his business will go on as usual.—*Portland Advertiser.*

Was there any political malice in the recent statements of the Argus relative to the alleged failure of Mr. Somes? The Saco and Biddeford papers do not make any such statements.

REWARD FOR INCENDIARISM. The City Government of Portland offers a reward of $500 for the detection of the scoundrels who have caused the recent fires in that city.

CAPT. HOLMES' CASE. The State of Maine says:—

We understand that Judge Clifford proceeded to Boston Saturday afternoon, whence, after fulfilling his official duties there, he will go to Washington. We furthermore learn, that he intimated he would not be able to consider the exceptions of the counsel for prisoner—should any be filed—until the latter part of February or early in March.

AT the Levee at the Free Church on Columbia Street, on Tuesday evening a very generous response was made towards cancelling the debt of the society incurred in the erection of the house. We understand that eight hundred dollars were subscribed towards the object.

"RUFFIANISM.—On Monday evening a young man from Dover, named Bragdon, while walking near the foot of Washington street, was assaulted and severely beaten by some young rascals who were unknown to him.—*Union*

DIVIDENDS.—The York Manufacturing Company at Saco, have declared a dividend of $30 per share, payable Nov. 3, to holders of stock 22d inst. The shares, we believe, are $500 each.

NEW MILL AT CHERRYFIELD. A correspondent of the Machias Union speaks of a new and superior saw-mill just completed at Cherryfield owned by Mr. J. W. Cofin and others of that place, and erected under the superintendence of Mr. James L. Meserve. It contains a gang of saws, constructed after the most modern style, with Messrs Hinckley & Egery's iron fender posts—an excellent improvement.—There is also a single saw, and a box and lath mill. On the 19th, the gang sawed fifty-five logs into boards in 3½ hours.

Wm. D. Washburn, brother of the distinguished representative from this District in Congress, is, we perceive, elected to the legislature of Minnesota. While the Republican party has favors to distribute, we hope it may always exhibit the same discretion in the selection of their recipients as has led to the choice of our friend Washburn.—*Union.*

MISCELLANEOUS CALL. We are informed that the Congregational Church and Society at South Berwick, have invited Rev. Ebenezer Douglass of Oldtown to become their pastor, upon a salary of $1000.

DEATH OF HON. ROBERT RANTOUL. Hon. Robert Rantoul died at his residence, in Beverley, on Sunday, after a brief illness, in the 56th year of his age.

FIRE AT AUGUSTA. About 10 o'clock on Monday morning, the house of Mr. Taylor, on Winter Street, occupied by himself and Mr. Abner Fogg, was discovered to be on fire in the L. By the exertions of the neighbors and the aid of the engines, which were soon on the ground, the fire was confined mostly to the L. The damage is estimated at about $400.—covered by insurance in the Lincoln (Bath) Insurance Co.—*Farmer.*

ACCIDENT. We learn that two young ladies, daughters of Mr. Coburn, Iceland, of Bloomfield, were thrown from a wagon in Norridgewock, on Friday last, in consequence of coming in contact with another carriage, the horses being frightened at some timber which lay on the road side, shyed to one side. One of them was taken up senseless, and it was at first thought she was dead, but after the lapse of about an hour, she came to her senses, and is now convalescent. The other, though she was somewhat bruised, escaped without serious injury.—*Kennebec Clarion.*

NICARAGUA LINE. Attention is called to the advertisement of Mr. John P. Felverton, agent of the Nicaragua line of Steamers to California. This line employs no persons as canvassers, and to avoid deception passengers should apply in person, or by letter, directly to the office, No 3 Bowling Green, New York.

SAD RAILROAD ACCIDENT. A sad accident occurred at West Lynn, upon the Eastern Railroad, on Saturday afternoon. A girl of twelve years was in the act of crossing the track near the depot as the 5 P. M. train from Salem for Boston came along, by which she was run over, and so badly injured that she died in about six hours. Her name was Chaney.

A DOG STORY.—The New York correspondent of the Portsmouth Journal narrates the following:

There was been a belief of mine that animals of the dumb species think, for the argument contains the contrary notwithstanding, and I see now a circumstance in the boy from some Portsmouth friends resident in Brooklyn, that has increased my faith in the matter. Some relatives have a fine specimen of a Newfoundland dog, who, I half I heard of him be true, can do almost anything but talk.

Not long since his master sent word to him, "Pompey, you may go out in the front yard and stay half an hour, but dont go outside of the gate." After he had been gone a short time his well known knock was heard at the door, and, on his being opened, Pomp was discovered accompanied by a half starved, abject looking object on the dog species, with one of his legs disabled, which he induced to follow him into the front basement, and lie down on a large soft mat near the door. He then went into the kitchen and intimated to Bridget that he wanted his usual forenoon's lunch, which having procured, he took it to his new friend, laid it before him, and looked on with evident satisfaction while he did it.

As Pomp's master did not wish a boarder of that description, she told him the he must introduce his new friend into the street again, which he pretended at first not to understand, but finally, in a very apologetic way, however, did as he was ordered, assuring the unfortunate companion up two or three steps into the street, and looking after him as he limped on his way, with a sad and troubled countenance. So much for Pomp's character for benevolence. On his qualities as a night watch I learn that one night during the past summer, he discovered that the front door had been inadvertently left open. He knew that was not correct, although the outside blind door was fastened by a dead latch; so he went to his master's bed room, waked him up, and I would not leave the room until he followed him down stairs and closed the door. He is thought to be worth three star policemen and a pair of private watchmen in addition.

SECTARIANISM.—When the Baptists of Hartford began to hold public services, an over-zealous member of Dr Strong's society called upon him, and asked him if he knew what John Bolles had started an opposition meeting.

"No," said he; "what—where?"

"Why, at the old court house"

"O, yes, I know it," the doctor carelessly replied, "but it is not an opposition meeting. They are Baptists, to be sure, but they preach the same doctrine that I do. You had better go and hear them."

"Do I" said the man, "I am a Presbyterian."

"So am I," rejoined Dr Strong, "but that need not prevent us from visiting them well. You had better go."

"No," said the man with energy, "I shan't go near them. Dr Strong, ain't you going to do something about it?"

"What?"

"Stop it, can't you?"

"My friend," said the doctor, seriously, "John Bolles is a good man, and will surely go to heaven. If you and I get there, we shall meet him, and we had better, therefore cultivate his pleasant acquaintance with him here."

ONE NOT DEAD. A sailor was called upon the stand as a witness.

"Well, sir," said the lawyer, "do you know the plaintiff and defendant?"

"I don't know the drift of them words," answered the sailor.

"What, not know the meaning of plaintiff and defendant?" continued the lawyer. "A pretty fellow you are for a witness. Can you tell me where on board the ship that this man struck the other one?"

"Abaft the binnacle," said the sailor.

"Abaft the binnacle," said the lawyer, "and what do you mean by that?"

"A pretty fellow," responded the sailor, "to come here as a lawyer and don't know what 'abaft the binnacle' means."

Charles Mackay thus addresses *ackberries*—

Black as Beauty's tresses,
Sweet as Love's caresses,
Dear image of the people, beloved of high and low,
Dear to age and childhood,
Gleaming in the wild wood,
Peeping to the sunshine in every green hedgerow,
Berries of the bramble,
How I love to ramble
Through the shady valleys, and pluck them as I go!

Certainly, ripe blackberries are "nonsuch," but these poets are terribly hyperbolical fellows! The only redeeming line in the description is that which says that blackberries are *dear.*—*Post*

THE PORTSMOUTH MURDER CASE.—The trial of Nelson N. Downing for the murder of Mary Spinney, which occupied the court of Portsmouth, N. H., all last week, was concluded on Saturday. The defence was insanity. The jury found a verdict of guilty of manslaughter, and Downing was sentenced, on Saturday, to one year in the State Prison. It is the opinion of public sentiment was decidedly with the prisoner.

DAVIS'S PAIN KILLER.

Messrs. P. DAVIS & SON. Gents—Before I left Montreal with your agent Benjamin had found out the value of your Pain Killer, and I could readily have disposed of a large quantity of it among them. It seems particularly efficacious in cholera morbus, bowel complaints, and other diseases in which the action of Burnish, from their unwholesome style of living are particularly exposed. It is a valuable antidote to the poison of Centipedes, Scorpions, and in such cases stand the most excruciating pain speedily prevented the swelling by applying the Pain Killer. On our voyage homeward from India the captain of the ship was taken with vomiting and purging and other symptoms of the cholera. I gave him a good dose of Pain Killer with the most immediate and happy results. So active and speedy was the relief that he recovered me he would never again go on a voyage without your excellent medicine, if he could possibly procure it.

Respectfully yours,

Horrible Tragedy in New York.

New York, 27. Last night the eldest son of Francis Goulding, lumber dealer, attacked the family, killing his two younger brothers, and it is feared mortally wounding his father, mother, two sisters and the servant girl. He had been detected robbing his father, and his probable motive was revenge. The murderer ended the slaughter by blowing out his own brains.

Further Particulars of the New York Tragedy.

Francis A. Couldey, the murderer, was about nineteen years of age, and a dissipated young man. The family consisted of Francis Couldey, Jane A. Couldey, his second wife, three sons, Francis A., the homicide, Nathan, 11 years old, Charles Wesley, five years old, two daughters, Mary Eliza, fifteen years old, two step children, two and four years old, and two servant girls named Elizabeth Carr and Johanna Murphy.

It appears that the habits of the young man Francis displeased his father. He was out late at night and used too much money. His father refused to allow him a night-key, but he would get up and let him in when he came home at night, and rebuke him for his unseasonable hours. It is stated also that Frank yesterday took a bank book from his father's desk, which the old gentleman pronounced to be an act of stealing.

Last night Frank came home at 10 o'clock. The family had retired with the exception of his father, who was sitting in a front room on the second floor. His wife was in bed in a room adjoining in the rear, and the two small children were in a crib in the room with their mother.

Mr. Goulding says that as Frank came in he was just retiring, and he said to her, "Why, mother, are you up yet?" "Yes, Frank," was the reply, "I am up yet." He then passed into the room where Mr. Goulding was, and the two had some unpleasant words between them, and finally heard a heavy blow on the door. She had just got into bed, and thought to herself, "Is it possible Frank has struck his father?" and at that thought Frank came into her room, partially raised the bedclothes from around her bed, and dealt her a heavy blow on the head with a hatchet; she screamed and sprung up, and he repeated the blow twice, when she fell heavily to the floor, fracturing down the setting as she fell. The murderer then passed through the hall bed-room, where the two brothers slept. They had to be got up, hearing the noise, and he struck each a murderous blow on the head. He left them both prostrate and covered with blood, and passed on to the stairs, and ascended to the 3d floor. The apartments on the 3d floor were occupied by himself, his sister Mary and the two servants. The servants had heard the noise, and were in the hall of the upper floor. As he went up stairs he immediately attacked them, prostrating each with a frightful blow upon the head. Mary, hearing the struggle and the screams of the servants, opened her door, and looking out saw the girls covered with blood, but did not recognize her brother, believing it to be a burglar, she locked her door and remained in her room. Had she known it was her brother she would have rushed out, in which case she would probably have been murdered.

After committing this series of atrocious murders, it is believed the homicide went down stairs, pulled off his boots and coat, and donned slippers and morning gown, in which one time he returned to his room and committed suicide with a three barrel pistol. Only one barrel was discharged; the other two were heavily loaded when the weapon was found.

In a drawer of the bureau in his room was a pistol, it is believed that he took the pistol out after retiring his room for the last time. His sister says he has had a pistol for several years.

The ball entered above the right ear and passed out just over the left eye, causing instant death.

The alarm having been given, the neighbors rushed to the spot, and beheld a scene of blood and horror too painful to describe. The father lay upon the floor entirely insensible, with his face and head bathed in blood; in the next room, the mother lay helpless; in the hall bedroom the two boys were prostrate, and one of them senseless; and in the upper hall the two servants lay, also covered with blood, one of them tossing her arms in delirium; while the author of this appalling tragedy lay lifeless on the floor of his own room still grasping the fatal pistol in his right hand.

Dr. Sewell, of West 20th street, who was called to the scene, gives the following description of the condition of the sufferers:

Mr Goulding, the father, was struck upon the left side of the skull in two places, the axe entering the surface of the brain. His case is considered hopeless. He is still wholly unconscious, and in all probability cannot recover. Mrs Goulding, the mother, who is enceinte, received three wounds on the head, two of which were scalp wounds from one to two inches in length. In addition to these she received two punctured blows upon her right arm, causing severe contusions. Hopes are entertained of her recovery, but her condition is extremely critical, and her injuries very dangerous. The boy, Nathan, received a blow on the right side of the head, cutting up the scalp for three inches. His condition is extremely critical, although he is perfectly conscious. Charlie, the boy of 5 years of age, received a blow under the vertex, which communicated with the substance of the brain. The condition of the patient is comfortable but dangerous. The servants were taken to the hospital immediately, in a carriage, where Johanna Murphy died of her wounds this morning. The other girl, Elizabeth Carr, was dangerously wounded, and probably cannot recover. Indeed the condition of all the victims of this unnatural crime is extremely critical, and it would not be a matter of surprise if none of them should recover.

Young Goulding's suicide was the first matter which attracted the attention of the police who broke into the house and discovered the awful tragedy which had been committed.— Physicians were immediately called, and everything possible done to allay the sufferings of the victims.

The Goulding family are highly respectable. Mr G is an officer of the 20th Street Methodist Church, and well known in this community.

DR. CUTTER'S
IMPROVED
Chest Expanding
SKIRT SUSPENDERS!

THESE are for the purpose not only of expanding the chest and improving the figure, but also for carrying the whole weight of the skirts. It is well known that nervous diseases and weaknesses are brought on by the foolish fashion prevalent among ladies of wearing the whole weight of their skirts about their hips. With this article any number of skirts may be worn without injury to the health, they in fact embrace all the advantages of the stay and corset, without any of their evils.

Parents, look to your Children!

These Braces are almost indispensable to children, as they are liable to contract the habit of stooping and shrugging their shoulders at school, causing them to grow narrow chested, and laying the foundation for consumption and lung diseases. Parents should bear this in mind, as wearing one of these Braces will alleviate the difficulty in a very short time.

GLEASON'S
NEW WEEKLY
[illegible]

THE object of this paper is to present every week, an agreeable melange of the notable events and literature of the time. Its ample columns will always contain a goodly store of popular Original Tales, Sketches of Adventure on Sea and Land, and Poetic Gems by the

Best American Authors.

Also, the cream of domestic and foreign news so condensed as to present the largest possible amount of the intelligence of the day, the whole well spiced with

WIT AND HUMOR.

In politics, and upon all sectarian questions, it will be strictly neutral. Each edition will be

BEAUTIFULLY ILLUSTRATED

with accurate engravings by eminent artists of notable objects, current events in all parts of the world, and the national customs and social peculiarities of every people. It will contain views of every important city, of edifices of note in the eastern and western hemispheres, of all the principal ships and steamers of the Navy and Merchant service, with fine accurate portraits of every great public character, male and female.— Sketches of picturesque scenery, representations of "life on the wave," and exact illustrations of admirable or curious specimens from the animal kingdom, will also be given. One great feature of

GLEASON'S
LINE-OF-BATTLE SHIP

will consist of a "broadside" of fun occupying a page executed by the best artists in that line, and aimed good-naturedly and in a spirit of genial fun, at the reigning follies of the age and such new public projects and individual caprices, as shall seem to be fit subjects for comic illustration.

An unrivalled corps of Contributors

have been engaged, and every department will be conducted under the most efficient and perfect system that experience can suggest. This popular journal will be printed upon fine satin surface paper, from new and beautiful copper faced type, manufactured expressly for us, and will present in its mechanical execution the most acceptable evidence of the progress of American art. The size of this elegant specimen of art will be about 1500 square inches—eight super-royal quarto pages.

Terms $2 per Annum.

The first number of this new Illustrated Paper will be for sale on the 1st day of NOVEMBER NEXT at all the principal periodical depots, agencies and respectable literary depots in the United States and the Canadas.

GLEASON'S
LINE-OF-BATTLE SHIP

will be published regularly every Saturday, at

American & Foreign Patents.

I. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U S Patent Office, Washington (under the Act of 1837.)

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France, and other foreign countries. Draws Specifications Bonds, Assignments, and all Papers or Drawings for Patents executed on liberal terms, and with despatch Researches made in the American and Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington.

The Agency is not only the largest in New England but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collect on of specifications and official decisions relative to patents These, besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe render him able beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington, to procure a patent and the usual great delay there are here saved to inventors

TESTIMONIALS

I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS MASON,
Late Commissioner of Patents.

"I have no hesitation in securing everyone that they cannot employ a gentleman more competent and trustworthy, and more capable of putting in all a inventor can desire than he will be found by those who employ him" said the late valuable examination at the Patent Office PHINEAS SHERR
Late Commissioner of Patents

Boston, February 9 1856

Mr S. H. Eddy has made for me FIFTEEN APPLICATIONS in all but six of which he has been granted and that in nearly all the most remarkable proof of great talent and ability in the case issued in recommendations to apply to him. I speak these positions because they may be sure of having the most faithful attention bestowed on their cases and at very reasonable charges.

From Sept 17th 1857, to June 17th 1858, the subscriber in connection with his large practice made on *twelve* rejected applications SIXTEEN APPEALS EVERY ONE of which was decided in his favor, by the Commissioner of Patents

LINCOLN'S

WATER PROOF BLACKING,

AND LEATHER PRESERVATIVE.

Keep your feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It was a truth that when leathers often wet and dried, soon became hard, stiff, and cracks, but when it is water-proof this is remedied By the application of this preparation, it remains soft, and entirely impervious to water

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather At last by a chemical process, I discovered a preparation, which perfectly harmonizes with the astringent properties which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years and a large part of that time have worked in a wet Tannery with my boots constantly in water, and have not had my feet wet during that time I can therefore in all confidence, recommend it to the public as the best article in the market

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time

For Southern climates it is excellent, and much superior to any other, as the moistness of the climate does not destroy it,—the properties inserted in the pulp being a preventive In all the Southern States, Cuba, the West Indies and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the ink and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use

The Company have now in operation Mills in Morris County, N J, of about 300 horse power, and are able to fill all orders for Paper at the shortest notice

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No 70 Wall street, New York
